Showerwise®

FILTRATION SYSTEM

Get a fresher, cleaner, chlorine free shower

Chlorine is used to disinfect most tap water. But chlorine can make your skin dry, sensitive, flaky, and itchy. It irritates your eyes and makes your hair dry and unmanageable. Worse yet, chlorine and chlorine by-products aggravate symptoms for many asthma, allergy, sinus and emphysema sufferers.

"Fabulous! At long last I've found the secret to silky, shiny, manageable hair and it's not even a hair product! What a difference!" Dana Begley, Pittsburgh PA

Chlorine reduced by 95%

The Deluxe Showerwise Filtration System converts chlorine to a harmless chloride. Showerwise also reduces or removes combined chlorine, hydrogen sulfide (sulfur), mercury, sediment, iron oxide, fungus, and mildew. And it prohibits bacterial growth.

"We have a lot of iron in our H₂O—this filter worked first time in reducing 'iron' smell and increased softness." June Ward, Bellefontaine OH

Lasts much longer than other filters

Showerwise has 10 to 20 times the life and effectiveness of any carbon-only filter. While a carbon filter works well in cold water only, the patented KDF and Chlorgon material used in Showerwise performs best in warm or hot water. And Showerwise contains over 50% more filtering material for a longer effective lifetime than most other filters.

I highly recommend this product. More and more is being written about chemical contamination through the skin, mouth and nose. My husband is 'hard to please' and he is 'thumbs up' with Showerwise."

Judith Nessia, Alpharetta GA

Easy to install

Showerwise installs easily by hand. The filter cartridge lasts 15,000 gallons or 12-18 months and can be replaced in just a few minutes. Includes multi-jet massage head with adjustments for full body spray, massage, or spray/massage.

"Showerwise was simple to install and the adjustable showerhead is a great add on." Randy Gilbert, Long Lake MN
